美しい自然は、日本海を朱に染めて沈む夕日や緑豊かな山々、国指定天然記念物の石見畳ヶ浦や三隅大平桜、日本の棚田百選に選定された室谷や都川の棚田など、四季折々に多彩な表情を見せています。約1300年前の律令時代には、石見の国の国庁が置かれるなど古い歴史があり、また文化面では、日本遺産に認定された石見神楽や北前船寄港地の外ノ浦、ユネスコ無形文化遺産の石州半紙、浜田城跡や国指定史跡の石見国分寺跡などの文化財が大切に継承されています。観光は、シロイルカのバブルリングが人気の「しまね海洋館アクアス」、豊かな泉質の温泉、美しい海水浴場など、1年を通じて「浜田」を楽しむことができます。

そして、食では、浜田漁港で水揚げされる「どんちっち三魚」、「浜田港四季のお魚」や「沖獲れ一番」に代表される海産物、西条柿や赤梨、大粒ぶどう、有機野菜などの農産物のほか、赤てんなど浜田市自慢の特産品も豊富です。

浜田市は、市政運営の柱となる「第2次浜田市総合振興計画」に基づき、目指す将来像「住みたい 住んでよかった 魅力いっぱい 元気な浜田～豊かな自然、温かい人情、人の絆を大切にすまち～」を実現するため、7つの「まちづくりの大綱」を掲げ、各種施策を推進しています。

Hamada, an attractive and energetic city where people want to live and enjoy life
～ A city rich in nature and human kindness where bonds between people are treasured ～

Nestled between the mountains and the sea, Hamada City holds an abundance of beautiful nature, and is blessed with various local resources, including culture, history, hot springs and delicious healthy food, all of which are nurtured by the climate and surrounding environment.

Enjoy the beautiful nature found throughout the four seasons in Hamada City, featuring sunsets that turn the Sea of Japan red, the lush greenery of the mountains, Iwami Tatamigaura beach and Misumi Obira Cherry Tree that are designated as national natural monuments, and the terraced rice fields of Murodani and Tsukawa, both ranked in the Top 100 Terraced Rice Fields of Japan. The City has a long history in that the government office of Iwami Province was established about 1,300 years ago during the Ritsuryo period (mid-7th-10th centuries). The culture of Hamada is preserved to this day through cultural treasures such as Iwami Kagura and Tonoura Bay, a port of call for Kitamaebune cargo ships, each of which is a designated Japan Heritage. Other examples of cultural properties in Hamada include Sekishu-Banshi (washi handmade paper), a registered UNESCO intangible cultural heritage, Hamada Castle Ruins, and Iwami Kokubunji Temple Ruins designated as a national historic site. Tourism offers various attractions in Hamada all year round, including Shimane Aquarium AQUAS where bubble rings made by beluga whales are popular with visitors, hot springs rich in water and mineral quality and beautiful beaches.

As for cuisine, Hamada City offers a wide variety of specialties including the Donchicchii Three Fishes that are caught at Hamada Fishing Port, seafood represented by Hamada Port Seasonal Seafood and Fish, and Okidore Ichiban, farm products such as Saijo persimmons, russet pears, large red grapes, and organic vegetables as well as Akaten, a spicy fried fish paste.

Hamada City has set out seven Frameworks for Community Development and promotes various measures and policies to realize our future vision: "Hamada, an attractive and energetic city where people want to live and enjoy life ~ A city rich in nature and human kindness where bonds between people are treasured ~."

We actively promote collaboration amongst our citizens to realize an Energetic Hamada and to take the next leap forward as a regional hub city in the western part of Shimane Prefecture.

幻の鉄道遺産「浜浜鉄道今福線」橋脚群

広島と浜田を結ぶ浜浜鉄道。島根側の今福線は1940年に工事が中断したままで、今も多くの橋脚やトンネルなどが残りその存在感を放っています。遺構マニアの間では撮影スポットとして人気です。

Phantom Railroad Heritage Remains of Bridge Piers from "Imafuku Line of Kohin Railway"

The Kohin Railway connects Hiroshima and Hamada. The Imafuku Line in Shimane was left uncompleted after construction was suspended in 1940, and many of the bridge piers and tunnels remain standing as they were. The site is popular as a photo spot amongst fans of the remains.
